"This internship is an amazing opportunity in so many ways. There is nothing that compares to the experiences I have had with kids, culture, travel, relationships, teaching, performing arts, and growth in Christ through this internship. The basic premise is that we teach kids about worship through the arts – but in reality, they teach us." --Deborah

"I have been able to use the theatre games, teaching methods, and leadership techniques as a Teaching Fellow for Beginning Acting at Birmingham-Southern College. Because this internship gives you a taste of so many aspects of theatre and ministry production it is perfect for people seeking unique ways to utilize their arts interests (beyond the common goal of performing on Broadway!). --Christie
